People live below me up above me to the sides
Even if I wanted to I got no place good to hide
Concrete is my color and commerce it's my pride
Get me out of here
No one should live like this
Get me out of here
From the subway's steamy kiss
Take me to the country and dip me in some bliss
Get me out of here 'Cause I can't live like this
Alone along the crowded streets among the circus
freaks
I saw Jezebel and Claribel and they were begging
mister please
You can help me too I said and gave them my T.V.

Chorus

Cause I can't live like
My hands are twitching brain is frazzled
Carryin on in fits
I can't carry on in this frenzied state I'm in
The last time that I saw you, you were wearing a
disguize
And hiding from some lawyers who were buzzing gray
haired flies
Dried out bloodshot eyes have you forgotten how to cry

Chorus

Cause I can't live like
Out of here
Cause I can't live like
Out of here
