Everywhere I Wanna Be  
(Marty Dodson - Danny Wells)

I like the me I see in your eyes  
And knowing that I'm the one that makes you smile  
You've given love a name and a face  
Showed me that it can be a beautiful place.

Everywhere I wanna be in this life  
Is here by your side, baby  
All I ever wanna do is get lost in lovin' you  
Long as you're with me I'm everywhere I wanna be.

Your breath on my skin is a tropical breeze  
Your kisses send an arctic chill over me  
Why wander the planet what could I hope to see  
The view when I hold you is amazing to me.

Everywhere I wanna be in this life  
Is here by your side, baby  
All I ever wanna do is get lost in lovin' you  
Long as you're with me I'm everywhere I wanna be.

Oh, oh,  
--- Instrumental ---  
Oh, oh

Everywhere I wanna be in this life  
Is here by your side, baby

Everywhere I wanna be in this life  
Is here by your side, baby  
All I ever wanna do is get lost in lovin' you  
Long as you're with me I'm everywhere  
I wanna be.

I Wanna be...
