The dancing clown brings life to sound  
Anxiously awake  
The wandering eyes the ribboned skies  
Takes me away  
We all sing to the music  
Because it frees our minds  
We all dance to the music  
Because it heals sweet time  
We all love the music  
It's in our souls tonight  
At the carnival  
At the carnival  
Painted blue  
Surprised by you  
The circus moves The sirens call  
Fireworks fall  
At the carnival  
We all sing to the music  
Because it frees our minds  
We all dance to the music  
Because it heals sweet time  
We all love the music  
It's in our souls tonight  
At the carnival  
At the carnival  
At the carnival  
At the carnival
