Naked with you
All night long you
Naked with you
All night long you
She woke up with a look on her face
Her body serves with such grace
And it's times like these
When I'm begging please
Naked with you
All night long you
Naked with you
All night long you
Wouldn't mind some company
Wouldn't mind some company
All dressed up in pillows and ties
Our love undresses the night
And it's times like these
When I'm begging please
Naked with you
All night long you
Naked with you
All night long you
Wouldn't mind some company
Wouldn't mind some company
Wouldn't mind some company
Wouldn't mind some company
