Well you were having your fun
Just lying in the sun
Now you can stand like a man
But if you're smart enough you're gonna turn and run
I can feel it in my heart
They're gonna feed you to the sharks
Well it's hard to believe
You're not the only mouth to feed
And your sense of adventure's gonna fade
When you see yourself bleed
I can feel it in my heart
They're gonna feed you to the sharks

Well take a deep breath
While you still have one left
Cause you'll be walking on water
In the valley of the shadow of death
And I can feel it in my heart
They're gonna feed you to the sharks

Well you were having your fun
Just lying in the sun
Now you can stand like a man
But if you're smart enough you're gonna turn and run
I can feel it in my heart
They're gonna feed you to the sharks
