

Bad Examples "No Distractions"

Visit "[No Distractions](#)" on MotoLyrics.com

All I really want to do
Is tear these walls out of me and you
We're trapped inside these movie roles
Let's start living with a little more soul
Throw your coat upon the grass
Flip back your head and shake your ass
I'll do anything you like
Let's start living with a little more life
It's a great big bouncy world and it's yours and mine
I wanna revel in our physical attraction
With no distractions

Run my fingers down your back
I'm gonna kiss your belly and bite your neck
Out here lying in the sun
It's one for the money, and two for the fun
There's something chemical - what have we done?
It's time we got us some soul satisfaction
With no distractions

It's no accident that I feel fine
It's a great big bouncy world and it's yours and mine
Close your eyes and we will make our connection
With no distractions
