Won't you stop, take a breath  
Find a moment to reflect  
On the pure and simple choices  
That we fail to see

From the worst to the best  
From the East Coast to the West  
On an never ending quest  
To end our misery

So cut to the chase, it's time to escape  
Before it's too late  
Yeah, pick up the pace and catch up with fate  
It's slipping away

So get off my road, no, I won't be told  
'Cause I got my own  
Definition of destiny

Yeah, take back control, and don't let it go  
The future's unknown  
Definition of destiny  
Definition of destiny

Punch the clock to a own  
While our lives are put on hold  
When did all our childhood dreams  
Begin to disappear?

Well, a long time ago  
We had passion, we had goals  
Why is life so set in stone  
It doesn't have to be?

So cut to the chase, it's time to escape  
Before it's too late  
Yeah, pick up the pace and catch up with fate  
It's slipping away

So get off my road, no, I won't be told  
'Cause I got my own  
Definition of destiny

Yeah, take back control, and don't let it go  
The future's unknown

Yeah, take back control and don't let it go  
The future's unknown

Along the way, we lost our way  
So will you change?  
We're still the same  
So in between, reality  
And fantasy is destiny

So cut to the chase, it's time to escape  
Before it's too late  
Yeah, pick up the pace and catch up with fate  
It's slipping away

So get off my road, no, I won't be told
