Woah-oh-oh  
Woah-oh  
Woah-oh-oh

Slapped my face, slammed the door  
A dozen roses lay on the floor  
I saw her friends and I was told  
She blocked my number from her cell phone  
You said we were meant to be  
Now this obsession is killing me  
Until I have a heart attack  
I'll keep on trying to win you back

Alone at last,  
I can't wait till we're alone at last  
All i wanted was a second chance, second chance  
To hold you in my arms at last

Forever, forever  
I'll walk a thousand miles  
Just to tell her, to tell her  
Our love is still alive  
And I'll never, I'll never  
I'll never let it die  
Well you'd better watch your step  
She's a diamond on a landmine

I'm not so sure about this word  
But she kept calling me insecure  
I tried to quit but there's no use  
Cause I'm addicted to her abuse  
She's in control of everything  
I'm just a puppet, she pulls my strings  
Denying truth, I'll test my fate  
And keep on playing this wicked game

Alone at last,  
I can't wait till we're alone at last  
All i wanted was a second chance, second chance  
To hold you in my arms at last

Forever, forever

I'll walk a thousand miles  
Just to tell her, to tell her

Our love is still alive  
And I'll never, I'll never  
I'll never let it die  
Well you'd better watch your step  
She's a diamond on a landmine  
Better watch your step  
She's a diamond on a landmine  
Better watch your step  
She's a diamond on a landmine  
Waiting to explode

We're dancing on thin ice before  
Frozen from the winter's cold  
And if it were to crack below  
I'd never let you go

Alone at last,  
I can't wait till we're alone at last  
All i wanted was a second chance, second chance  
To hold you in my arms at last

Forever, forever  
I'll walk a thousand miles  
Just to tell her, to tell her  
Our love is still alive  
And I'll never, I'll never  
I'll never let it die  
Well you'd better watch your step  
She's a diamond on a landmine  
Better watch your step  
She's a diamond on a landmine  
Better watch your step  
She's a diamond on a landmine  
Waiting to explode

Better watch your step  
She's a diamond on a landmine  
Better watch your step  
She's a diamond on a landmine  
Better not touch  
She's a diamond on a landmine  
Better to forget  
She's a diamond on a landmine  
Waiting to explode
