It's a dirty night tonight  
I'm just watching the world go by  
But nothing ever happens or works out right  
Under these city lights  
Under these city lights

I've got bad, bad news  
I've gone and one what I always do  
I've fallen in and out of love with you before you even  
had a clue

Don't tell me you can't live without me  
You still don't know a thing about me  
And how the urgency of our demise was just a matter  
of time  
Under these city lights  
Under these city lights

It's a dirty night tonight  
I'm just watching the cars go by  
From this phone booth when I just gotta make the call  
And say goodbye  
And say goodbye  
I just called to say  
Don't tell me you can't live without me  
You still don't know a thing about me  
And how the urgency of our demise was just a matter  
of time  
Under these city lights  
Under these city lights

You know I'm leaving and hold on while you can  
The tension runs as deep as this city spans  
You say you won't forget but I will fade so fast  
Write the whole world down it still won't last

Don't tell me you can't live without me  
You still don't know a thing about me  
And how the urgency of our demise was just a matter  
of time  
Under these city lights  
Under these city lights

Under these city lights  
Under these city lights
