What time of day  
Should I sing my song  
Should I sing it in the morning  
Before anything goes wrong

There's only me and you  
And a honeysuckle dew  
I can sing I love you  
And you know I really do

What time of day  
(What time of day)  
Should I sing my song  
(Should I sing my song)  
Should I sing it in noontime  
With the bright sun shining on

He's taken the morning dew  
He's taken the shadows too  
I can sing I love you  
And there's no doubt you love me too

What time of day  
Should I sing my song  
Should I sing it in the evening  
While the whole world sings along

Darkness has finally come  
And the day is finally done  
And everybody's having fun  
But you're still my only one  
Whoa, whoa, whoa

What time of day  
(What time of day)  
Should I sing my song  
(Should I sing my song)  
Should I sing it in night time  
When we're finally all alone

And the only still small voice  
I can hear is your sweet voice

You're my only choice  
So it makes my heart rejoice

What time of day  
(What time of day)  
Should I sing my song  
(Should I sing my song)  
Should I sing it in morning  
While we're still all alone

There's only me and you  
And a honeysuckle dew  
And I can sing I love you  
And you know I really do  
Whoa, whoa, whoa

What time of day  
(What time of day)  
Should I sing my song  
(Should I sing my song)

Should I sing it in morning  
(What time of day)  
Should I sing it in the noontime  
(Should I sing my song)

Should I sing it in evening  
(What time of day)  
Should I sing it in the night time  
(Should I sing my song)
