[Note: The name Myrrys is a shaman's trance-state, or spirit journey]

Ä"Ä´ni tuulen, varjot puiden
YksinÄ´ni uneksin, haltioissa ylenin
Ätinen rauha, pilvien like
Lensin yli metsien, keralla pilvien

Sammasta kiipesin kannelle taivaan

Salot siniset, kammiot kultaiset
Juksimme taivaan niityillä Ä´ IÄ´pi tÄ´htitarhain
Ikimenneiden ilmoilta, kadonneiden kartanoilta
Varman viisauden tapasin, elon kullan IÄ³ysin

Sammasta laskeuduin kannelta taivaan.

[English translation:]

The voice of the wind, the shadows of trees
Alone I dreamt, in spirit-powers grew;
Nocturnal calm, the movement of clouds
Amongst them I over the forests flew.

I ascended the World Tree to the Dome of the heavens

Blue-hued islands, golden chambers
In the meadows of heaven we ran through the stars;
From the lands of the deceased and tracts of the lost
True wisdom I found, Life's Gold I discovered.

I descended the World Tree from the Dome of the heavens.
