"Get Away"

Well, I may be wrong leaving it up to you
But my love is strong, and that's what I'll do
Well, you may be right working all night and day
And I know, sometimes, I've got to get away
Get away, oo-oo-way
The walls are getting closer
People trying to freeze my soul
The times are getting harder, only wanna Rock 'N' Roll
Too much sittin', thinkin' what we're gonna say
And I know, sometimes, I've got to get away
Get away, oo-oo-way
I may be wrong, babe, leaving you this way
I must be strong, babe, leaving you today
Well come on, hey hey
[guitar solo (Pete Ham)]
Get away, oo-oo-way
I may be wrong, babe, leaving you this way
I must be strong, babe, I'm leaving you today
Well, you may be right working all night and day (gotta
move, get away)
But I know, sometimes, I've got to get away
Get away (gotta move, get away)
Oo-oo-way (gotta move, get away)
Get away (gotta move, get away)
Oo-way (gotta move, gotta move)
Get away (gotta move, get away)
Yeah, way (gotta move, get away)
I said, way (gotta move, get away)
Get away, alright! (gotta move, gotta move)
Right! (Gotta move, gotta move)
Get away (gotta move, gotta move)
Get away (gotta move, gotta move)
Alright! (gotta move, gotta move)
(Gotta move, get away)
Get away! (gotta move, get away)
Get away (gotta move, get away)
Get away (gotta move, gotta move)
(Gotta move, gotta move).
