Birds sing and doorbells ring in answer  
People say it's a lovely day outside  
I don't mind, I've got my way of living  
Even if it's only for the ride

I don't mind if people find me lazy  
I could say it's only for the fun  
Step inside, let's see if I can make you  
After all it's only just begun

You don't know me

What's on my mind  
And you can't show me  
What I can't find

Days, nights, alright, it's easy  
Spending time and making rhymes for you  
I don't mind, I've got my way of giving  
Even if it's all I ever do

Step inside, let's see if I can make you  
Even if it's only for the ride

You don't know me  
What's on my mind  
And you can't show me  
What I can't find
