"I Miss You"

Though you've been gone for just a week
It makes me feel so sad to speak
Lady come back
I miss you
And though before I didn't cry
Now my eyes are never dry
And a thousand jesters couldn't make me smile
I miss you
I miss you
And now I know that I was wrong
But it's too late, for now you've gone
Lady come back
I miss you
And though our times were good and bad
Now you're gone, I'm always sad
And a thousand jesters couldn't make me smile
I miss you
I miss you
I miss you.
