"Icicles"

Visit "Icicles" on MotoLyrics.com

Isn't it nice when the rain comes fallin'?
Turns into icicles, melting, mournin'
Isn't it good when a friend comes callin' 'round?

Isn't it good when you need somebody?
People will help you, not be lonely
Then you find someone who loves ya, only you

But never take a love for granted
Give a little in return
Try to be understandin', live and learn

Isn't it good when the sun comes shining?
Giving us warmth, see the children smiling
Just the reflections of love around their heart

Oh, just a start

But never take a love for granted
Give a little in return
Try to be understandin', live and learn

Isn't it good when the sun comes shining?
Giving us warmth, see the children smiling
Just the reflections of love around their heart

Oh, just a start
Just a start, just a start
