"Love Can't Hide"

There's a magic in the air
Reach into my soul
Something down inside
Love can't hide

There's a charge come over me
Can never change my mind again
I was lookin' to be free
Love's the key

And in my dreams, she's with me every night
Everything I do for her helps me see right

[piano & guitar solo]

And in my dreams, she's with me every night
Everything I do for her helps me see right

There's a magic in the air
Cast a spell on me
Now, there's nothing to decide
Love can't hide
Love can't hide
Love can't hide.
