I've got what I need, I know you're there
Call my name, I'll be there

I want you to know, it's on my mind
I'm afraid of the pain that you hide

Anytime fear surrounds you, let it pass away
Hold it down, turn around

Love will come your way

I want you to be, it's all I need
Loving you, loving me

I've got what I need, I know you're there0
Call my name, I'll be there

Anytime fear surrounds you, let it pass away
Hold it down, turn around
Love will come your way
