How many times have you heard it before?

You should never have taken the chances

Out on the street

You had nothing to lose but the shirt on your back

It's a gamble

Something just happened inside me

And I'm running as fast as I can

Pickin' up pieces, won't let no one get in my way again

Gonna be a winner this time

Gonna be a winner this time

Anyway that I choose it

I'm not gonna lose it again

Gonna be a winner this time

Gonna be a winner

Take what I can, it's been there all along

There's no reason for me to surrender

I feel it comin', been waiting so long

Now, I know what it is that I'm after

Something is there, I can feel it

Before I was too blind to see

Pieces are falling in place and I know that in time you'll

see

Something keeps a-pushing me on

Telling me I gotta be strong

Something's got a hold of my heart again

Tellin' me I gotta go on

[guitar solo (Joe Tansin)]

Anyway that I choose (be a winner this time)

Not gonna lose (be a winner this time)

Know what I'm after (be a winner this time)

I'm near to surrender (be a winner this time)

Know it's a gamble (be a winner this time)

(Be a winner this time)

Gonna (Be a winner this time)

(Be a winner this time)

Near to surrender (be a winner this time)

(Be a winner...)
