"The Magic Of Us"

Visit "[The Magic Of Us](#)" on MotoLyrics.com

I hold your hands like ornaments
And all I meant was too be kind
And all I meant was to be kind
I pull your heartstrings tighter
And play my song as loud as I can
I'll sing my heart out for you
I'll sing my heart out for you

How does all this feeling grow
How does all this feeling go on

I pull my sleeves out further and
I prepare to fight my demons
I must not lose again this time
So wrap your arms around me
And sing the words as loud as you can
We are together in this world
Together in this world

How does all this feeling grow
How does all this feeling go on
How does all this feeling grow
How does all this feeling go on

And I will lift my head above the sky
And I will see the stars tonight
The stars tonight will brighten our faces
Our minds will be racing along
With our hearts intertwined with love
The magic of us
