"Teamwork"

When two guys pull together it's teamwork.
In foul or sunny weather it's teamwork.
What does it take to make any business climb?
You'll find it takes teamwork every time.

Incidentally, your jokes will kill the yokels it's teamwork.
I love your hokey vocals it's teamwork.
Like Fred Astaire and Ginger yet twice as chic
We'll give them that teamwork, cheek to cheek.

Here we are, just like in Zanzibar
Still nothin, still a star.
That's quite a stab from old flab.
They always pay us plenty for teamwork.
We split it 80-20 -- that's teamwork?
(Yours is tax free.)
When others start to part and go off the beam.
Like siamese brothers we'll be on each other's team.

No fuss about the billing it's teamwork
The smallest type is thrilling it's teamwork.
Although we hold each other in low esteem
We're loaded with teamwork!
Hey now!
What's life without teamwork?
Go boy!
Unless you got teamwork there's no team.
