Late one night through a purple sky
A vision touched my soul
Listening to the wind that night
My soul lost control
500 years of voices carry on the wind
Each dawn I watched a sunset melt through an ocean
blue
Aaaww, through and ocean blue
Sun red sun (sun)
You've been bleeding child for much too long
Sun red sun (sun)
You've been bleeding child for much too long
Yeah, yeah
Angels like red she'd me of my sins
And freedom's touched my wings
Through this hour in the thick and thin
I stand alone again
500 years of voices carry on the wind
Each dawn I watched the sunset melt through an ocean
blue, oh

Sun red sun (sun)
You've been bleeding child for much too long
Sun red sun (sun)
You've been bleeding child for much too long
Much too long child, yeah
Each dawn I watched a sunset melt through an ocean
blue
500 years of voices carry on the wind
Aaaww, strong connection winds
Sun red sun (sun)
You've been bleeding child for much too long
Sun red sun (sun)
You've been bleeding child for much too long
Sun red sun (sun)
You've been bleeding child
You've been bleeding child
Bleeding child
Bleeding child, Oh
