Alone the hours race,  
A shadow hides my eyes and face,  
Disgraced the candles die  
I'm in darkness once again

And I can't see the place,  
Where I escape this,  
Endless story, purgatory,  
Forced to watch the living become dead

Staring at the source without a face  
A room within a room conceals the fate  
Fragments of unwanted dreams  
Tearing at the walls for all it's worth,  
Fed realities  
Will they... ever... end!

Soar, arising from the core,  
Remembrance of the one, of all that I've  
Become, I'm breathing silence.  
Rage, The words that I can shout  
Can break above the ground  
Reduced to nothingness  
I'm breathing silence.

Voiceless I am inside,  
A near-conscious state of mind  
Redsigned to live through lies,  
Filled with darkness once again

But I can't fade away  
This white noise still  
Echoes to me  
Cuts right through me  
It drips some life,  
Just enough for me to see

Conscience pulls me  
Beneath the horizon,  
Nothing left, this final breath  
Leaves me  
Brings me

Death
