

Biomechanical "Predatory"

Visit "[Predatory](#)" on MotoLyrics.com

Liberate!

Conform reaction with spoken weapons

Thought suppressors

Severance! The apex predator

Feeds on instinct, one by one

Slaughtering the will

Murdering the weak

Killing to become

Equilibrium

It captivity, bred ferocity

Made to activate survival mechanisms

Of surplus aggression

Acceptance

Arise to predatory

Hid in faith

Ti kill is necessary

Reason reborn

Devour, carnivore

Resolve, evolve with the blackened

Don't you know it?

You're predatory

You never show it

You're predatory

God damn predatory!

Deprecate

For all that differ, succumb to live by

Enforced beliefs

Reciprocate, the primal instincts

With infant killings

One by one enforced beliefs

Reciprocate, the primal instincts

With infant killings

One by one

Inbred rivalries, animosities, led us to believe

That we are all deceived
Poison parasite, savage genocide
Memories inside, surfacing fiercely
Deformed regression

Of violet spawn
The creature born
To savage thoughts
Internal walls
Inherent
Aggressive carnivore!

Of sinful birth
The scavenger
Feeds on the corpse
The slaughterer
Denounces
God fearing sacrifice

The origin
Of nature's sin
A potent force
That writes the past
A black discourse
Though minds mature
The sins endure
The weak will fall in carnage!
Can you see me now...
Can you hear me!

Those words of faith
Faded away
This silent air
Now frozen

The slaughterer
Hides in the light
Darkening eyes
I'm stricken

Of sinful birth
The scavenger
Feeds on the corpse
Destroyer

Can you see me now...
Can you hear me!
