[Verse 1:]

Empty spaces
All filled
With nothing but my fears
Silence in me
Reflects
My life, my destiny

Keep me awake
I can't
Go through this dream again
Hear my calling
Straight through the void of my soul

[Verse 2:]

I am there
I feel - I hear
Sounds of abysmal fear
Shutting my eyes won't help
I see straight through my flesh

Reflect
Deflect
Infect the fragments of my past
Floating around me
Is the life I've never had

[Chorus:]

Save me from this living nightmare
Save me from a life without an end

Hate me for whatever hurts you
But please don't let your self go

[Verse 3:]

Way in Way out
It seems
One and the same to me
Visions of hope
A rope
That is tightening in my neck

Survive
Decide
Revive the fragments of my past
Floating around me
Is the life I've never had
