Oh God here she comes
With her big mouth firing like a verbal machine gun
Cant tell how you fit all the words in there
You talk talk talk
Til I cant understand a single word your sayin
Dont you ever want to
Give those lips a rest

My friends
My clothes
My hair
Dont you know I dont care
Lets talk about me
Dont want to hear about you anyway
Nobodys listenin to a word you say
Lets talk about me now

I know how you think
That the stuff that
Happens to you really matters
I sure you think were all intrigued
But if you stood in my shoes
Youd know its really just a drag to see you
And thats when big mouth strikes again

My place
My face
My stare
Dont you know I dont care

Lets talk about me
Dont wanna hear about you anyway
Nobodys listenin to a word you say
Lets talk about me now
Might tell me x's 4

Oh girl youre so sad
Did I go and say something that made you feel bad?
No really I am listening
So go on chill that nasal voice
Right through the middle of my head
Im lasting

Wishing you were dead

My friends

My clothes

My hair

Dont you know I dont care

Lets talk about me

Dont wanna hear about you anyway

Nobody's listenin to a word you say

Lets talk about me

now

Lets talk about me

Dont wanna listen to you anyway

Nobody's listenin to a word you say

Lets tak about me now

Lets tak about me

Gonna talk about me now
