

Birdlegs & Pauline "Spring"

Visit "[Spring](#)" on MotoLyrics.com

I feel that spring is coming on
I feel it all in my bones
A feeling that no one could explain
So all I can do is call it spring

You know everything about me is fine
I feel so happy all the time
All year long, I've been blue
Now that spring will send me to you

We'll be together the first of spring
We'll smell the blossoms while I explain
The reason that we had been apart
And all the things that I had in my heart

We'll show the world
How strong our love
By all the stars in Heaven above
What people say won't mean a thing
Cause in our hearts
We'll know it's spring

We'll be together the first of spring
We'll smell the blossoms while I explain
The reason that we had been apart
And all the things that I had in my heart

We'll show the world
How strong our love
By all the stars in Heaven above
What people say won't mean a thing
Cause in our hearts
We'll know it's spring
