How I feel is how I feel
How I feel is all alone
I'm in a room of friends dressed like
strangers
What I want when I want
I thought I wanted to be free
But somewhere on my way here it hit me
At what moment I can't say
I turned around and you were gone
I realized that I was wrong
I need you

How I feel is how I feel
How I feel is out of touch
I've just got to see you tonight
So afraid to open up
I won't make the same mistake
Really trying to say is
I need you

How I feel is how I feel
How I feel is all alone
I've just got to see you tonight

It's you I want It's you I want
It's how I feel It's how I feel
I've just got to see you tonight
