Woke up on the floor today
Aching head and loss of time
An empty bottle next to me
I remember that you left
I just can't remember why

And so this is how it goes
For the guy who couldn't lose
Sinking to the bottom of an ocean of tears
& so this is how it goes
For the guy who couldn't lose
It just goes to show
You never know
You really never know

Tonight I'm going out with friends
I'll perform my stupid tricks
They'll say I'm better off alone
Have another drink on me
Fill me in what did I miss?

And so this is how it goes
For the guy who couldn't lose
Sinking to the bottom of an ocean of tears
& so this is how it goes
For the guy who couldn't lose
It just goes to show
You never know
You really never know
