Lost in limbo
Feeling low
Dealing with the pain
And a constant rain
Of tears from a broken heart
So blue, so blue, So blue
Let me sing a song for you
While your world falls apart

Close the door
Dim the lights
Slip on the head phones
Close your eyes
And relax
You and I alone
Lost in stereo

Your in the hands of the bad love junkie now
A little blue eyed soul
In the hands of the bad love junkie now
Understand that the bad love junkie now has control

Welcome to the underground
Every wound is deep
Every lover here let down
Stay as long as you like
I've know what you need
To help you through the night

On with the show
Feel the flow
Songs for a broken heart
It's true, it's true, it's true
Let me sing this one for you
Let the healing start

Close the door
Dim the lights
Slip on the head phones
Take a breath
It's alright
Steady as we go

Lost in stereo

Your in the hands of the bad love junkie now

A little blue eyed soul

In the hands of the bad love junkie now

In the hands of the bad love junkie now

Understand that the bad love junkie now has control
