So, you've finally found the time
Making molehills out of mountains
What's yours is surely mine
Let's not argue over nothing
It's all in your mind
Powerful karma
Has never failed
It's never been tried
Powerful karma
It's going to take over peace in my mind
So, a life is what you find
You find forgiveness somewhere
It's a lonely, lonely ride
By the time you find a reason
You're under the ground (way down)
Powerful karma
Has never failed
It's never been tried
Powerful karma
It's going to take over peace in my mind
And now the guns been fired
And it's time to be a hero (it's all in your mind)
Tell me, where did all the fear go? (it's all in your mind)
Will you trade your superstition
For a hole in the ground?
Powerful karma
Has never failed
It's never been tried
Powerful karma
It's going to take over peace in my mind
