Watch out for you  
That's all you can do  
I just wanna save you  
I just wanna save you  
Just wanna save you from the world

[REPEAT]

Look out, be warned  
No one loves you anymore  
To fight for your right is a need  
To win in a fight you must bleed  
Watch out for you

Look out, be warned, beware  
They'll castrate you, they don't care  
Just think, they won't blink, they'll just stare  
Pull your self up, if you dare  
Watch out for you,  
That's all you can do

[CHORUS:]

Just wanna save you from the world  
Don't let them get you best, no  
Just wanna save you from the world  
The life you want has come to the test

If all I say isn't heard then you will pay  
You must be the star in this power play  
As life goes on there is no other way

[CHORUS:]

Just wanna save you from the world  
Don't wanna see you in distress, oh no  
Just wanna save you from the world  
The life you want has come to the test

I just wanna save you from the world
