

Bitter End **"Sex And Death"**

Visit "[Sex And Death](#)" on MotoLyrics.com

We're all fucking and fighting
From beginning to end
Sex gives you life
And death is life's end
Death is the end

From the moment you drop out
Until you're dropped back in, oh yeah
Remember that birth means you're marked
With original sin

It won't ever change
It's always beginning again
The way that it starts and the way that it ends
Always stay the same
Stay the same

Sex and death!...

I've seen what life is, it's all sex and death!

Sex and death!...

Inevitability
Beckons us all
With sex we are lured
With death, we answer the call

It's always the same
Always beginning again
The way that it starts and the way that is ends
Always stay the same
Stay the fucking same
