Your eyes are open - But your mind  
Yes your mind - Is closed  
Humiliation or self - Preservation  
Heads they win - and tails you lose  
Selective perception - or just self-deception?  
Is Tunnel Vision blinding you?

[Chorus:]

See not - hear not  
Think not - and fear not  
You can race to the cliff - or face the abyss  
Or try to avoid the disaster unfolding below  
Tunnel Vision - Your decision  
Tunnel Vision

Inertia takes over - And stagnation prevails  
You're off the offensive - entrenched, and defensive  
Stagnant thoughts in a frozen mind  
No longer objective - You're lost your perspective  
And what you don't know - You won't mind

[Repeat chorus]
