What if there is nothing else for us after all this
I don't care, I don't mind, just as long as we find
sometime
Just come back and I'll stay out of the way
An be all the things you need
Another mouth to feed

How can I be sure again, once more
How can I find time to be with you again?

How can I give you the answers you need
When all I possess is a melody?
Yeah, how can I take up the air that you breathe
When all I possess is a melody?

How can I be sure, again, once more?

I don't care, I don't mind, just as long as we find some
time
When you come back I'll go out of my way to be all the
things you need
Another mouth to feed

How can I give you the answers you need
When all I possess is a melody?
Yeah, how can I take up the air that you breathe
When all I possess is a melody?

How can I find time to be with you again?
When you come back I go out of my way
And be all the things you need
Another mouth to feed
