Oh...

Are you ready now

The trains are ready to go

But you're still busy talking crap and cheap on the  
phone

So make up your mind

Or else you'll never know

What's going to be next

We'll go to lunch or go to bed

The minute you call me I'll be down here on my own

So make up your mind

Or else you'll never know

It's either me or you

Don't ask me coz I don't have a clue

Maybe I'll just leave you there and make it on my own

So make up your mind

Or else you'll never know

C/o

The feelings that we've shared

The money that we carry

Doesn't go

With the flow

It has to change somehow you know

The feelings that we've shared

The money that we carry

Doesn't go

With the flow

It has to change somehow you know
