Lung-full of tar and gasoline  
Open it wide you just might see  
The big black hole  
Goes out of control in too deep  
Big mouth long teeth goes nice and clean  
It can't be changed so let it be  
Your big black hole  
Runs out of control  
Aahhhh...  
Your luck comes in too late  
The card has shown your fate  
It went through

Aahh...

Big mouth long teeth goes nice and clean  
Your pink fat lips let go a scream  
Along the road  
Goes out of control  
In too deep  
What do you hide is what you see  
All full of tar and gasoline  
The big black hole  
Goes out of control

Aaahhh...

Your luck comes in too late  
The card has shown your fate  
And it went through  
And I think it suits you

Aaahhh...

Your luck comes in too late  
The card has shown your fate  
It went through

Aahh...
