You want to take a trip for free?
Come on close your eyes, let's fall asleep
We can dream up anything, just come along with me
We'll go to Jamaica, or the Himalayas
You can be Tarzan and I'll be Jane
We'll swing along from tree to tree my friend
Or we can pretend to be shipwrecked at sea
Just come along with me
We'll drink Bloody Marys and do it in a cemetery

I'm feeling strange, I'm feeling crazy
Something's come over me dear
I'm feeling dazed, I'm feeling hazy
Something's come over me dear
What is this place? Where are we going?
Where are these voices I hear?

I'm falling in love with you
Can't you see that I'm falling in love with you
Can't you see that...

What a journey, what a ride
I'll take a trip with you anytime
Oh, wherever you want to be
Just come along with me
Come along with me
Come along with me
