

Bad Religion

"52 Seconds"

Visit "[52 Seconds](#)" on MotoLyrics.com

I know I'm part of something greater than myself
Don't know the meaning, but I hope that matters less
I don't know anything when I'm factored out of scale
I know I'm part of something greater than myself

We're all engaging in a game of attrition
Maybe God is just a chemical fiction
(Chemical fiction)

I'm a monkey with a madding affliction
Fact checking for a mental condition
(For a mental condition)

I know I'm part of something greater than myself
Don't know the meaning, but I hope that matters less
I don't know anything when I'm factored out of scale
I know I'm part of something greater than myself
