

Bad Religion "Heroes And Martyrs"

Visit "[Heroes And Martyrs](#)" on MotoLyrics.com

Amid the heat and the wrack
Hot boots invested and cracked
Poor candidates jacked into gray light

An ultra-violent call
Summoning both poet and thrall
Sweet catalyst for the acolytes

Our heroes & martyrs
Present two points of view
Which deity you're praying to

Into a welter of night
Flack, rounds and roiling blight
Cracked vertebrates stacked by the wayside

An ultra-violent call
Summoning both poet and thrall
The inveterate blind seeking daylight

Our heroes & martyrs
Present two points of view
Which deity you're praying to
