I've got nothing to say  
I've got nothing to do  
All of my neurons are functioning smoothly  
Yet still I'm a cyborg just like you

I'm one big myoma that thinks  
My planet supports only me  
I've got this one problem  
Will I live forever?  
I've got just a short time to see

A modern man, evolutionary betrayer  
A modern man, ecosystem destroyer  
Modern man destroy yourself in shame  
A modern man, pathetic example of  
Earth's organic heritage

Oh when I look back and think  
When I ponder and ask, "Why?"  
I see my ancestors spend with careless abandon  
Assumin' eternal supply

A modern man, evolutionary betrayer  
A modern man, ecosystem destroyer  
Modern man destroy yourself in shame  
A modern man, pathetic example of  
Earth's organic heritage

Just a sample of carbon based wastage  
Just a fucking tragic epic of you and I
