You've got to quit your little charade and join the freak parade  
Now that your road has been paved from conception to your grave  
Enormous things to do others' practices to eschew  
To be better than you is impossible to do

But the world won't stop without you  
No, the world won't stop without you

Your achievements are unsurpassed, you are highly-ordered mass  
But you can bet your ass, your free energy will dissipate  
Two billion years thus far now mister here you are  
An element in a sea of enthalpic organic compounds

The world won't stop without you  
The world won't stop without you

You're only as elegant as your actions let you be  
A piece of chaos related phylogenetically  
To every living organ system they're siblings don't you see  
The world rotates and will revolve without you constantly

Two billion years thus far now mister here you are  
An element in a sea of enthalpic organic compounds

The world won't stop without you  
No, the world won't stop without you  
Said, the world won't stop without you
