Shut your eyes
See the future's distant shore
March ahead
More enlightened than before
And there's sure to be bumps
And distractions
But I know we'll get through
There will be me, there will be you
There will be a way

Unresolved repercussions from your life
Fortified with the vitriol of strife
And you can be gridlocked by predictions
But you're wise, grab the prize
Then revise, realize
There'll be a way

Ohh ho
There will be a way
(Ho, ho, ho, ho, ho, ho, ho, ho)

And I don't know where we are going
But you're here on this ride
And we'll stand side by side
All along the way

Follow me to the futures distant shore
Vagary needn't haunt us anymore
And now it's time to set the agenda
Learn my past, make it last
Share the wealth, hold your fire
Conserve life, make it right
Kill the hate, negotiate

There will be a way
There will be a way
There will be a way
There will be a way
There will be a way
