You're forced into a world  
Of hate and lies  
A God forgotten place  
Destined to die

My fate I will not face  
Your black and cold embrace  
Salvation free my soul  
May death be my savior

One step higher - evolution - live to die  
Feel the fire - revolution - it's a lie  
Domination - devastation - heaven sent  
Damnation - damnation - it's where we end

War, corruption, terror  
Rule our days  
The monsters we create  
Are here to stay

My fate I will not face  
Your black and cold embrace  
Salvation free my soul  
May death be my savior

One step higher - evolution - live to die  
Feel the fire - revolution - it's a lie  
Domination - devastation - heaven sent  
Damnation - damnation - it's where we end

Listen to my words  
Before you die  
No one ever dries  
The tears we cry

My fate I will not face  
Your black and cold embrace  
Salvation free my soul  
May death be my savior

One step higher - evolution - live to die  
Feel the fire - revolution - it's a lie

Domination - devastation - heaven sent  
Damnation - damnation - it's where we end
