Straight from hell appeared the evil creature  
Prepared to kill to take away all life  
It shares to you and you cannot resist  
His black dead eyes so full of hate to mankind

Deep black night is falling down to earth  
The end comes near from deep below the diabolic  
curse  
A nameless evil took it's human shape  
It's deep inside of all mankind, just waiting to escape

He come to make the human race bow down  
Reign of terror, his pleasure your pain  
Be his slave until the end of all days  
'Til the last drop of human blood falls down to the  
ground

Deep black night is falling down to earth  
The end comes near from deep below the diabolic  
curse  
A nameless evil took it's human shape  
It's deep inside of all mankind, just waiting to escape

Born out from your rotten tombs  
It means war  
Hear his name and die in fear  
It means war  
The gates of hell are open now  
It means war  
Out of the mirror, it slaves to you  
It means war

The essence of evil's coming down on you  
No way to refuse, no need to obey  
The incarnation of a nightmare comes true  
Rips the flesh of your body takes your soul away

Deep black night is falling down to earth  
The end comes near from deep below the diabolic  
curse  
A nameless evil took it's human shape  
It's deep inside of all mankind, just waiting to escape

Born out from your rotten tombs  
It means war  
Hear his name and die in fear  
It means war  
The gates of hell are open now  
It means war  
Out of the mirror, it slaves to you  
It means war
