When I was young man I've been fighting day by day  
Fighting for my dream of freedom for my right to say  
I am me, I'm my own nation, going my own way  
Me and millions of my brothers, that's the game we  
play

Come with me, in a union we stand  
Come with me, our rights we just defend  
Come with me, all against conformity  
Come with me, for rebellion shall be our destiny

We had so much power and a fire in our eyes  
Tear down the walls, destroy the system, fighting all  
their lies  
Our burning souls, infinite will, together we were strong  
One by one but all united, how could we be wrong

Come with me, in a union we stand  
Come with me, our rights we just defend  
Come with me, all against conformity  
Come with me, for rebellion shall be our destiny
