Did you hear Gabriel blow his horn?  
Then what sent those blackbirds on the wing?  
Into this house we were born to live

Like an arrow shot over the mountain  
Like a bottle tossed in the sea  
I have journeyed, I have traveled, now home calls me

Let's all gather 'round the grand piano  
Let's all raise our glasses in the air  
Give a cheer to the jolly good fellows and everyone  
who's cared

Who will mend this wagon wheel  
To put this show on the road?  
The music sounds just like it feels

Like an arrow shot over the mountain  
Like a bottle tossed in the sea  
I have journeyed, I have traveled, now home calls me

Let's all gather 'round the grand piano  
Let's all raise our glasses in the air  
Give a cheer to the jolly good fellows and everyone  
who's cared

And the band played on through the storm  
Through the wicked, wicked rain  
And the band played on in golden harmony

What straw will break this camel's back?  
Will we grow to love the load?  
Can't wait to be what time reveals

Let's all gather 'round the grand piano  
Let's all raise our glasses in the air  
Give a cheer to the jolly good fellows, everyone who's  
cared  
Well, everyone who's cared  
Oh, everyone who's cared, oh
