Here with me and this price you pay
Just a wishful dream could be blown away
Ask yourself for the awful worse
Because what's the use if it's just good luck
Good luck

A black cat has crossed my path
Tell me what's good luck about that

Hate and greed, swollen and sweet
Let's start this misery
If that's where you wanna be
Fear and love from down or from up above

Come to me, come to me
I beg you please
Come, set me free

Excuse me please for my definition
But deeper still, my conviction
Urgently I wait to hear an answer
While I misconduct a sad sad lost anthem
So say it

An anthem like you never have heard
Have you heard something so absurd

Hate and greed, swollen and sweet
Let's start this misery
If that's where you wanna be
You believe me

With my hatred and greed
Well, we are swollen and sweet
And you wanna start this misery
Well, here's, man, a place where you wanna be

With the fear and the love
From right here and from up above
Come on to me, come on to me
Well, I beg you please
Come, set me free
