"Been A Long Time (Waiting On Love)"

Visit "[Been A Long Time \(Waiting On Love\)](#)" on MotoLyrics.com

Earthbound wingless dream
Child born to necessity
Tied to crimson velvet wings
She flies

New moon midnight star
Medicine is in the jar
Head full of going far
She flies

Lost out on the dream road
Looking for a key hole
Never try to fight it
Feeling right inside it, girl

Low country blushing bride
Blind to the ways of time
Clear crystal burning mind
She flies

Falling through liquid air
With music everywhere
Stone faces silent stare
She flies

The old guard on the hill
Can feel the chill
Deep into the freeze
Of those who don't believe

Been a long time
Waiting on love
Been a long time
Waiting on love

Been a long time
Waiting on love
Been a long time
Waiting on love

Damp with this morning dew
The world is bright and new

Her word is always true
She flies

Step into the new day
Right over the old way
We are the horizon
See our future smiling

Been a long time
Waiting on love
Been a long time
Waiting on love

Been a long time
Waiting on love
Been a long time
Waiting on love

Lost out on the dream road
Looking through the key hole
Never try to fight it
Feeling right inside it, yeah

Been a long time
Waiting on love
Been a long time
Waiting on love

Been a long time
Waiting on love
Been a long time
Waiting on love

Been a long time
Waiting on love
Been a long time
Waiting on love

Been a long time
Waiting on love
Been a long time
Waiting on love, yeah
