Are you feeling me groove ya
Do it get right to ya
Do it creep right on up in your bones

Well it low down and greasy
It comes nice and easy
Put a smile on your face all that long

We be frightfully righteous
And if you don't like us man
Take your ear holes and go home
Bye bye go home

So we got just what you need
We brought you the remedy

So come on, come on
Let's get this thing started
Come on, come on, everyone
I said, come on, come on
You know we're right on it
Come on come on, it's on

We ain't foolin' we ain't playin'
We lay it down no complainin'
Pick it up and break some for you

So get on up out your seat
Because you make this scene complete
And we really like to stick it to you
Yeah, yeah

So we got just what you need
We brought you the remedy

So come on, come on
Let's get this thing started
Come on, come on, everyone
I said, come on, come on
You know we're right on it
Come on, come on, it's on, yeah

Come and get some
Yeah, come on and get some

So come on, come on
Let's get this thing started
Come on, come on, everyone
I said, come on, come on
You know we're right on it
Come on come on, it's on, yeah

I said, come on come on
Come on, come on
I said, come on come on
Come on, come on
Come on come on
It's, it's on now
