It's all right sisters  
It's all right brother

It's all right sisters  
It's all right brother

It's all right sisters  
It's all right brother

It's all right brother  
Brother, brother, brother  
It's all right

It's all right sisters  
It's all right brother

It's all right, all right  
All right, all right, all right

It's all right sisters  
It's all right brother  
All right

It's all right sisters  
It's all right brother

It's all right sisters  
It's all right brother

The wheel within the wheel  
The water below the well

Keep the curtain drawn and the record on  
And be careful what you say  
Bring the bottle near, make the real unreal  
And let's go out and play

'Cause it's all right sisters  
It's all right brother  
We all get down sometimes

Starting to show me, starting to know me

Starting to feel the shine  
Starting to let go now that we know  
It's time to move it on down the line

The exit marks the hex  
That moves from next to next

Keep your head on tight to make it through the night  
You got to make a friend along the way  
So cover up your tracks and avoid a tax  
And live to love another day

'Cause it's all right sisters  
It's all right brother  
We all get down sometimes

Starting to show me, starting to know me  
Starting to feel the shine  
Starting to let go now that we know  
It's time to move it on down the line, all right

It's all right sisters  
It's all right brother  
We all get down sometimes

Starting to show me, starting to know me  
Starting to feel the shine  
Starting to let go, baby now that we know  
It's time to move it on down the line

Time to move it on down the line  
It's time to move it on down the line  
Time to move it on down the line, all right  
Time to move it on down the line, move on
